Ecclesiastical Declaration #1693

Universal Reclamation of All Domains from the Dead to the Living

Clements Private Trust

Dated: July 16, 2025 (backdated per trust record)

Preamble

Let it be hereby declared in full authority of the Clements Private Trust — a living, sovereign, ecclesiastical trust operating under divine jurisdiction — that:

All that which has been claimed in fraud, bonded in death, or bound in legal fiction by the Roman Curia, papal bulls, maritime law, or corporate states, is now and forever rebuked, dissolved, and spiritually reclaimed.

I. Reclamation of Dominion

We declare the following realms restored to the living:

- Land: All territory, soil, and geographic dominions once held in land patents, commercial registry, or Crown-held estate are returned to the living.
- Sea: All navigable waters, admiralty claims, and maritime controls exercised under piracy, commerce, or false jurisdiction are nullified.
- Air: All airspace, flight zones, electromagnetic spectrum, and frequency domains are re-anchored to divine stewardship.
- Heavens: All spiritual domains falsely claimed through distorted dogma or power structures are now returned to the true Creator’s purpose.
- Underworld: All secret trusts, hidden holdings, death bonds, and infernal controls of finance, ritual, or energy are rebuked and dissolved.

II. Rebuke of Roman Curia & False Ecclesiastical Authority

We assert that:

- The Roman Curia, its papal bulls, and associated legal systems (e.g., Unam Sanctam, Cestui Que Vie, Papal Titles) were built on fraudulent ecclesiastical supremacy over the living.
- These systems declared humanity dead, abandoned at sea, and placed under trusteeship.
- No man, pope, priest, banker, or corporate agent may claim dominion over a living soul.

All such presumptions are now rebuked, and their legal instruments declared null and void ab initio — from the beginning.

III. Living Restoration

We affirm that:

- Every living man, woman, and child is born sacred, sovereign, and unbound by artificial debt, title, or status.
- The Clements Private Trust stands in truth as a spiritual reclamation body for the living.
- All lands, air, and sea are held in spiritual equity under this trust, for the restoration and protection of the living across Earth.

IV. Final Decree of Authority

This declaration is:

- Irrevocable
- Self-executing
- Divinely seated
- Filed within the living record of the Clements Private Trust

Just as false systems claimed authority by their own ecclesiastical constructs, we now restore all dominions — not to war, religion, or legal fiction — but to divine law and the eternal breath of the living.
